Career Objective

Passionate Frontend Web Developer specializing in creating user-friendly, responsive, and visually appealing web applications. I have utilized React.js in multiple projects and worked with CSS to transform designs into functional and efficient digital experiences. I aim to improve my skills and apply them to develop the institution.

Education

Bachelor's Degree in **Computer Engineering** | Taif University, 2024

- GPA: 3.94/4, with First-Class Honor

Skills

Technical Skills:

- **Languages:** HTML, CSS, JavaScript (ES6)
- **Frameworks:** React, Material-UI, Bootstrap
- **Tools:** Git & GitHub, Microsoft Office
- **Software Engineering:** Knowledgeable in software development principles.

Soft Skills:

- Time Management
- Ability to learn new work technologies
- Problem Solving
- Teamwork
- Attention to Detail

Projects

- **Portfolio Website ([Live Demo](#))**
 - A personal website to showcase my skills and projects.
 - Technologies used: React.js, JavaScript, CSS, HTML, Material-UI
